

RAS Aquarium Plant Reference Library

RAS HAP Librarian will bring the books to each meeting for the members TBD

Kasselmann, Christel (English ver. 2020) **Aquarium Plants**

637 pages. 838 color photos

Considered by some the “Bible” of aquatic plants. Book contains most plants in the hobby as well as information on distribution, description, culture, and ecology.

Stodola, Jiri (1967) **Encyclopedia of Water Plants**

368 pp. 200 color plates

T.F.H. Publications., Inc., Neptune, N. J.

Tepoot, Pablo ; Brad McLane and Judy Leiby (1998)

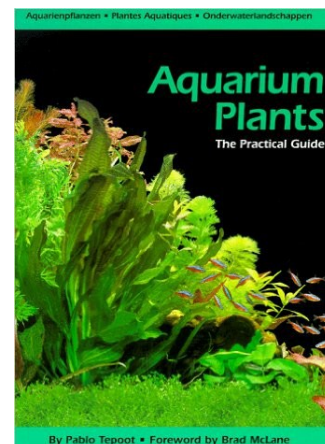

Aquarium Plants: the practical guide

216 pages, over 390 photos

New Life Publications, Homestead, FL

The book shows the emersed and submersed forms and was published as a catalog of plants sold by

Florida Aquatic Nurseries

Books were donated for use by HAP members
